

Assistance in the Adoption of the Kurikulum Merdeka at Elementary School 1 Padokan, Yogyakarta

by Supartinah, Irfan Wahyu Prananto, Sekar Purbarini Kawuryan, Agung Hastomo, Anwar Senen

ABSTRACT

This community service activity program aims to equip partner schools to welcome the implementation of the independent curriculum at Padokan 1 Public Elementary School. The methods for implementing community service activities are workshops and assistance in product preparation. The products developed are Formulation of Learning Objectives Flow (ATP) and Learning Objectives (TP), learning modules, and assessment sheets. The target of the activity was sixteen teachers at Padokan 1 Elementary School. The analysis is carried out starting from the program's preparation, implementation, and evaluation. The results of this activity program are the Learning Objectives (ATP) and Learning Objectives (TP) Flowcharts, learning modules, and assessment sheets. In addition, the evaluation showed that this program was proper and followed the needs of the target schools.
