

SOCIALIZATION OF BALLVOLLEY SPORTS MANAGEMENT IN SLEMAN REGENCY

by Sujarwo, Nurhadi Santoso, Abdul Mahfudin Alim

ABSTRACT

The game of volleyball is the number one sport of choice in society, therefore this sport needs to be packaged properly. The purpose of this community service is to provide education to volleyball coaches in Sleman district about volleyball sport management. Methods of community service with lectures and direct discussions. The target participants for this community service are 20 volleyball coaches. The expected knowledge from the results of this service is that activity participants experience an increase in knowledge about volleyball sports management. The place for the inauguration was at the "Parto" Kaliurang Sleman food stall. The trainer's knowledge exploration instrument uses a Google form with 10 question items. The results of the dedication show an increase in the knowledge of volleyball coaches in Sleman about volleyball sport management with an average score of: 54 increasing to a score of: 70.5. In conclusion, the trainer's knowledge of management concepts, training camp management and volleyball training management needs to be continuously improved. Community service needs to be carried out further to provide better education for volleyball coaches on a wider scale.
