

PELATIHAN DAN PENDAMPINGAN FOTOGRAFI BAGI SISWA MTS MUHAMMADIYAH TAWANGSARI SUKOHARJO JAWA TENGAH

by Prof Dr Suranto, Dra. Pratiwi Wahyu Widiarti, M.Si, Benni Setiawan, Ulfah Hidayati

ABSTRACT

Abstract

Technological advances that continue to accelerate require every generation to continue to be able to adapt. In addition to not being out of date, mastery of skills in the field of technology is also can be a means to support a better life. Referring though The Community Service (PkM) team at the Faculty of Social Sciences, State University Yogyakarta (UNY) held photography training for MTs Muhammadiyah students Tawang Sari Sukoharjo, Central Java. The event, entitled "Generation Alpha Spans Ages, Builds Century Intelligence" 21" was held on Saturday (4/6/2022) and was attended by 30 MTs students. Prof Dr Suranto Aw, Teacher The Department of Communication Program Evaluation said that this activity is a form of the seriousness of the Faculty of Social Sciences of UNY, especially the Department of Communication Studies in strengthen their role in society. Through this photography training, it is hoped that further bonding FIS UNY with madrasah. Moreover, the current state shows that the intelligence of a child is not only measured by his ability to get good grades in the classroom. But in the digital era, children must have special skills to be able to compete in the midst of the development of the industrial world that demands mastery of expertise more specific fields.

The event, which began with the presentation of the material on photo-taking techniques, was continued with direct practice by students. The PkM team divided the group of students into two group, and in the group each student has the opportunity to directly take a photo and discuss the results with the PkM team. In the event, given training for setting composition. This is very important to produce a satisfying photo shot. Method using composition can be done by dividing the camera screen into three using two vertical lines and two horizontal lines. Participating in the activity, 3 UNY Communication Science students who assisting students in taking pictures. Student involvement in the PkM event is a separate agenda for UNY so that they are more capable and skilled in development of social skills and abilities.
