

EVALUATION OF PUSLATDA KONI MANAGEMENT SPECIAL REGION OF YOGYAKARTA

by Lismadiana, Ria Lumintuarso, Agung Nugroho

ABSTRACT

Abstract

This study aims to evaluate the implementation of KONI Yogyakarta Special Region Puslatda management using the CIPP evaluation model (Contexts, Input, Process, Product).

This research is an evaluation research. The subjects of this study were administrators, trainers, athletes in DIY Puslatda totaling 50 people. Data was collected through observation, interviews, questionnaires, and documentation. The data analysis technique used in this study is descriptive quantitative and qualitative analysis.

The results of the research show that the evaluation of the Puslatda management in DIY in terms of contexts has gone well. In terms of inputs related to facilities and infrastructure is still lacking. In terms of input there are trainers, athletes and parental support as expected. In terms of the process it has run well because the implementation of the training and monitoring and evaluation program (monitoring and evaluation) has been carried out in accordance with the provisions, and the implementation of the training program has been going well. In terms of the product, in general, the achievements achieved are good.
