

WORKSHOP MAPPING THE ACHIEVEMENTS OF SLEMAN PUSLATKAB ATHLETES IN 2022

by Prof. Dr. Dra. Endang Rini Sukamti, M.S., Dr. Abdul Alim, S.Pd.Kor., M.Or., Dr. Tri Hadi Karyono, S.Pd., M.Or., Prof. Dr. Tomoliyus, MS.

ABSTRACT

This community service activity aims to map the achievements of Puslatkab Sleman athletes in 2022. For the service team, this activity is a form of dedication to the Tri Darma of Higher Education to the community, especially to the KONI of Sleman Regency and to establish cooperation with various parties in order to improve sports achievements in Sleman Regency. The implementation of the Sleman Puslatkab Athlete Achievement Workshop in preparing for the 2022 PORDA XVI event went smoothly according to the planned scheme. Participants consisting of representatives from 45 sports can attend the activity. Participants from sports representatives can be represented by coaches or administrators who understand and know the conditions of sports district officials, so that in determining achievement predictions they can report accurately according to the conditions of each sports district administrator. The implementation of this activity is a collaboration between FIK UNY and KONI of Sleman Regency in an effort by the service team from FIK UNY to support the Sleman Regency KONI Program in facing the PORDA XVI Event in 2022. Obtaining prediction data for athlete achievements in each sport will increase motivation and enthusiasm training for athletes. The results of this PkM will be published in the International Journal Humanitarian Responsibilities, Education & Sport Sciences (IJHRESS).
