PROFILE OF STUDENT ACADEMIC ANXIETY AT YOGYAKARTA STATE OF UNIVERSITY, 2018

by Dr Muh Nur Wangid, M.Si, Isti Yuni Purwanti, M.Pd

ABSTRACT

Abstract
The purpose of this study is to describe the profile of academic anxiety experienced by UNY students. The profiles displayed include descriptions of academic anxiety experienced by students seen from faculty, gender, distance and per class.
The research method used is descriptive quantitative approach, while the type of research is survey research. The data collection technique used an academic anxiety questionnaire instrument distributed to UNY students. The population in this study were all UNY students consisting of 7 faculties and post graduate programs, while the sample was carried out by random sampling method. By using the Krejcie table 90% confidence level, obtained a sample of around 400 students. Whereas for data analysis using ANOVA with the help of SPSS series 22.
The results achieved are to display the profile in full about the academic anxiety of UNY students in 2018
