

CHILD FRIENDLY PADUKUHAN MANAGEMENT IN KAPANEWON SEYEGAN SLEMAN DISTRICT

by Lantip Diat Prasajo, Aman, Fery Muhamad Firdaus, Awanis Alkalili

ABSTRACT

Cases of violence against children in DIY in 2022 were dominated by violence in educational institutions and the environment with 654 cases, while in Sleman Regency there were 145 cases recorded. Violence against children is dominated by sexual harassment and bullying carried out by peers or older people. The main aspects that must be considered in creating Child-Friendly Community Development Centers in the region include describing the participation and active role of children in developing and maintaining Child-Friendly Community Centers, knowing the current condition of Child-Friendly Community Management, knowing the main aspects that must be considered in creating Child-Friendly Padukuhan. The method used in this research is a qualitative method to reveal various qualitative information with thorough and meaningful description analysis. The results of this research reveal that the physical infrastructure is quite good, with proper road access and neatly arranged settlements. Development of special programs that support children in health, education, and cultural aspects. Suggestions from the research include the need for collaboration between government, schools, and society, education and training for parents, and utilizing technology to improve communication. Strengthening Child-Friendly Community Management includes increasing the involvement of children in decision-making processes that affect their lives, providing more child-supporting facilities such as playgrounds, study rooms, and recreation areas, educational outreach to the community regarding the importance of a child-friendly environment, collaboration with educational institutions and non-governmental organizations to develop educational and environmental conservation programs involving children. Involve children in the process of planning and developing Child Friendly Community Centers, so that they feel they have direct involvement.
